LOCAL INFORMATION

Crafts: Local arts and crafts are sold along the beach, in town and along the cliffs. A reasonable amount of bargaining is usually expected. The largest market is along the beach road just before reaching town.

Doctors: Two American trained physicians plus several Jamaican doctors are available in Negril. Dr. Radomski (957-4888) and Dr. Eva Mary Seiter (957-9028) are on call 24 hours/day. Dr. Sonja King is a respected Jamaican physician and can be contacted at 957-4697.

Groceries: Many grocery stores are scattered throughout Negril. The Hi-Lo supermarket in Sunshine Plaza carries many name brand items.

Laundry: Laundry baskets are provided in your room. Rates are listed on the laundry check sheet.

Money: U.S. dollars are accepted everywhere in Negril. The exchange rate varies, but you may purchase Jamaican Dollars at Banks & Cambios throughout Negril. Several ATMs are located in downtown Negril—dispensing only Jamaican currency.

LOCAL INFORMATION

Pharmacy: Negril Pharmacy, located in Value Master Plaza, can fill most of your minor medical needs.

Respect: Vendors of various local products may approach you occasionally, attempting to sell their wares. The best way to deal with them is to listen politely to their brief offer; then if you have no interest, a firm "no thank you" will generally end the conversation. Ignoring locals, in this situation or others, is a form of disrespect taken seriously by Jamaicans. In general, any visitor showing respect to Jamaicans will receive the same in return.

Shopping: Duty free items, jewelry, and art can be purchased at Time Square on the beach road, as well as at gift shops in town and at the larger hotels.

Taxis: Taxis are readily available in Negril. Just ask a staff member to arrange one. When hailing a taxi yourself, look for the red license plates starting with PP. Always agree on a price before departing.

Tipping: While tipping during your stay at Moon Dance Villas is prohibited, many of our guests leave something for the staff upon their departure. 10% of the room rate is the accepted norm, but this is, of course, up to the individual guest. Elsewhere in Negril, tipping is expected and appreciated as it is elsewhere in the world. Some restaurants add a "service charge" to your bill, so feel free to inquire about this.
